ORDER NOW—PAY NEXT FALL

DURING our Tulip show last year we asked a thousand visitors to cut and bring to our office the five tulips they liked best. The Farncombe Sanders won by a huge majority. This result did not surprise us a bit. For many years the Farncombe Sanders has led all others in popularity. It is the world's best seller among Tulips.

The Farncombe Sanders has a glorious, stupendous beauty. Its color is an intense brilliant scarlet. Its flower is beautifully shaped and giant in size. Its stem is strong and straight, and grows 25 inches high. It is a perfect specimen of Darwin Tulip.

Plant Farncombe Sanders bulbs; plant them in masses, and some time next May they will bloom together in a blaze of glory.

Tulip Time at Elliott's.

Every offer in this book positively closes July 1 ~

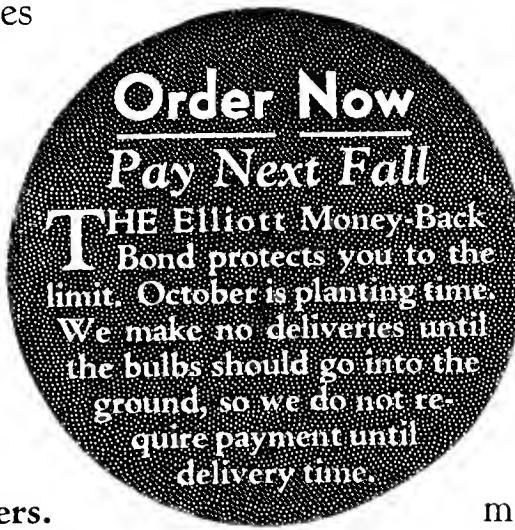

EARLY in July our buyers sail for Holland to get the pick of the best bulb crops. To place your order after sailing date, is to buy too late; it would then be impossible to fill your order. Your advantages under this method are many: Ours is the Biggest Bulb House in the World. We import on such a large scale that we can and do sell the world's finest, super quality, named bulbs at prices lower than are charged for nameless, second rate ones.

As we deal with scientist-specialists in each variety, rather than with ordinary growers, you can be certain that every Elliott bulb is exactly as named and described, that every bulb is fresh and healthy, and that every bulb has reached its full maturity and is ready to produce its finest flowers.

As you go through this catalog, you will find a greater variety of bulbs than any retail store could possibly carry. But, better than this, you will find Elliott bulbs described with an accuracy of detail that is impossible to the average clerk. So, when you put an Elliott bulb into the ground, you know exactly what kind of a flower it will bring forth.

Remember Elliott's Super-Quality Bulbs cost less than nondescript ones, remember that we import to your order. Your bulbs will be selected and packed in Holland and will be shipped to you immediately upon their arrival in this country next fall, perfectly fresh, double-tested, and in the best possible condition.

But you must be prompt; your order must reach us by July 1st.

GIANT FLOWERING TULIPS

Flower in Late May

THE Giant Flowering Tulips are the Darwin, including the so-called Ideal Darwin Tulips, the Breeder and the Hybrid groups. As the result of a decade of cross breeding, the groups are now so nearly alike that the most expert professional cannot now designate the group to which a given variety belongs. Since the only things which interest you are the colors of the flowers and the combining of colors in your garden, the maintaining of purely artificial classifications makes for confusion. Whether one designates it as a Breeder, a Darwin, a so-called Ideal Darwin, or a Hybrid Tulip, it is nevertheless a Giant Flowering Tulip.

Golden Age. In 1925 our president saw on the grounds of the great Dutch hybridist Tubergen, the first showing of the marvelous new yellow Tulip, Golden Age. Then there were just 30 bulbs in the world and they were priced at \$385.00 apiece. Mr. Elliott was so impressed with the marvelous beauty of this new creation that he immediately ordered his Dutch growers to produce it as rapidly as possible so that it might be introduced to the flower lovers of America. Not until this year have the stocks been large enough that we dared to offer it to our customers. Golden Age is a marvelously beautiful golden yellow Tulip growing 29 inches high and the best yellow Tulip in existence. 3 for \$1.20; \$4.00 per doz.; \$30.00 per 100.

Goldfinch. Golden bronze suffused with deep lilac through center of petals. Inside deep bronze with lighter edge. Base yellow. Pointed flowers on stately stems. Height 29 inches. 95c per doz.; \$7.00 per 100.

Honeymoon. Large fine flowers of the softest primrose. Unusually tall, growing up to 36 inches. 95c per doz.; \$7.00 per 100.

DARWIN TULIPS

The Darwin Tulips were the first of the Giant Flowering Tulips to be created. The first experiments introduced some gorgeous red and some magnificent, lovely pink sorts, together with some inferior purple and rather dirty white varieties. The primary base color was red and all attempts to produce the other primary colors by the original system of cross breeding failed. While this condition existed it was obviously proper to classify this group of Tulips separately.

Indian Chief. One of the largest and most beautiful Tulips ever introduced. The flower measures often 8 inches in diameter and is carried on a strong, erect stem 33 inches high. Color deep Indian red flushed with purple. 3 for 45c; \$1.35 per doz.; \$10.00 per 100.

Insurpassable. The newest and most beautiful of the light lavender Tulips. A giant flower on 28-inch stems. 3 for \$1.05; \$3.50 per doz.; \$25.00 per 100.

Jaune d'Oeuf. Soft yellow with delicate lilac flush through center of petals; very beautiful. Height 26 inches. 90c per doz.; \$6.50 per 100.

Jeanne Desor. The flowers are a deep yellow bordered orange-red. \$1.20 per doz.; \$9.00 per 100.

Louis XIV ~ the KING of the BREEDERS

When we first saw this royal purple and gold marvel we proclaimed it the most beautiful Tulip in the world. Since then our judgment has been confirmed over and over again. As a class, the Giant Flowering Tulips are exquisite beyond description. Yet at our Tulip Show more people commented on this wonderful Tulip than on any other.

When we first met Louis XIV the bulbs cost \$50.00 each. Now years of successful scientific growing has increased the supply to where they may be, as they should be, in every American garden.

BREEDER TULIPS

When the crosses which developed the Darwin Tulips failed to produce any primary color other than red, new experiments were started. These resulted in variations of yellow and blue but not in the pure primary colors themselves. The red primary could not be produced. Consequently, in the beginning the designation Breeder Tulips was justified. However, when the plant breeders began to cross the Darwin and the Breeder groups to create lovely lavender, violet and purple varieties in both groups, the division into two separate classifications began to be just a little absurd.

Jubilee. Rich blue-purple with white and blue base. One of the best blue Tulips grown. Flower very large, of open form and excellent substance. Strongly recommended. Height 29 inches. \$1.10 per doz.; \$8.50 per 100.

King George V. The finest brilliant scarlet Giant Flowering Tulip. \$1.15 per doz.; \$8.75 per 100.

King Harold. Deepest red with purple base; fine gardening sort. 80c per doz.; \$5.75 per 100.

La Fiancee. Beautiful old rose shading into delicate pink at the margin of the petals. Blue base. A large, full flower of artistic coloring and excellent substance. Height 30 inches. 90c per doz.; \$6.50 per 100.

La France. A new giant-flowered Tulip on 28-inch stem. The color is a marvelous clear rose-pink. 3 for 45c; \$1.55 per doz.; \$11.00 per 100.

La Tulipe Noire. Comes nearest of all to black; flowers of enormous size. 85c per doz.; \$6.25 per 100.

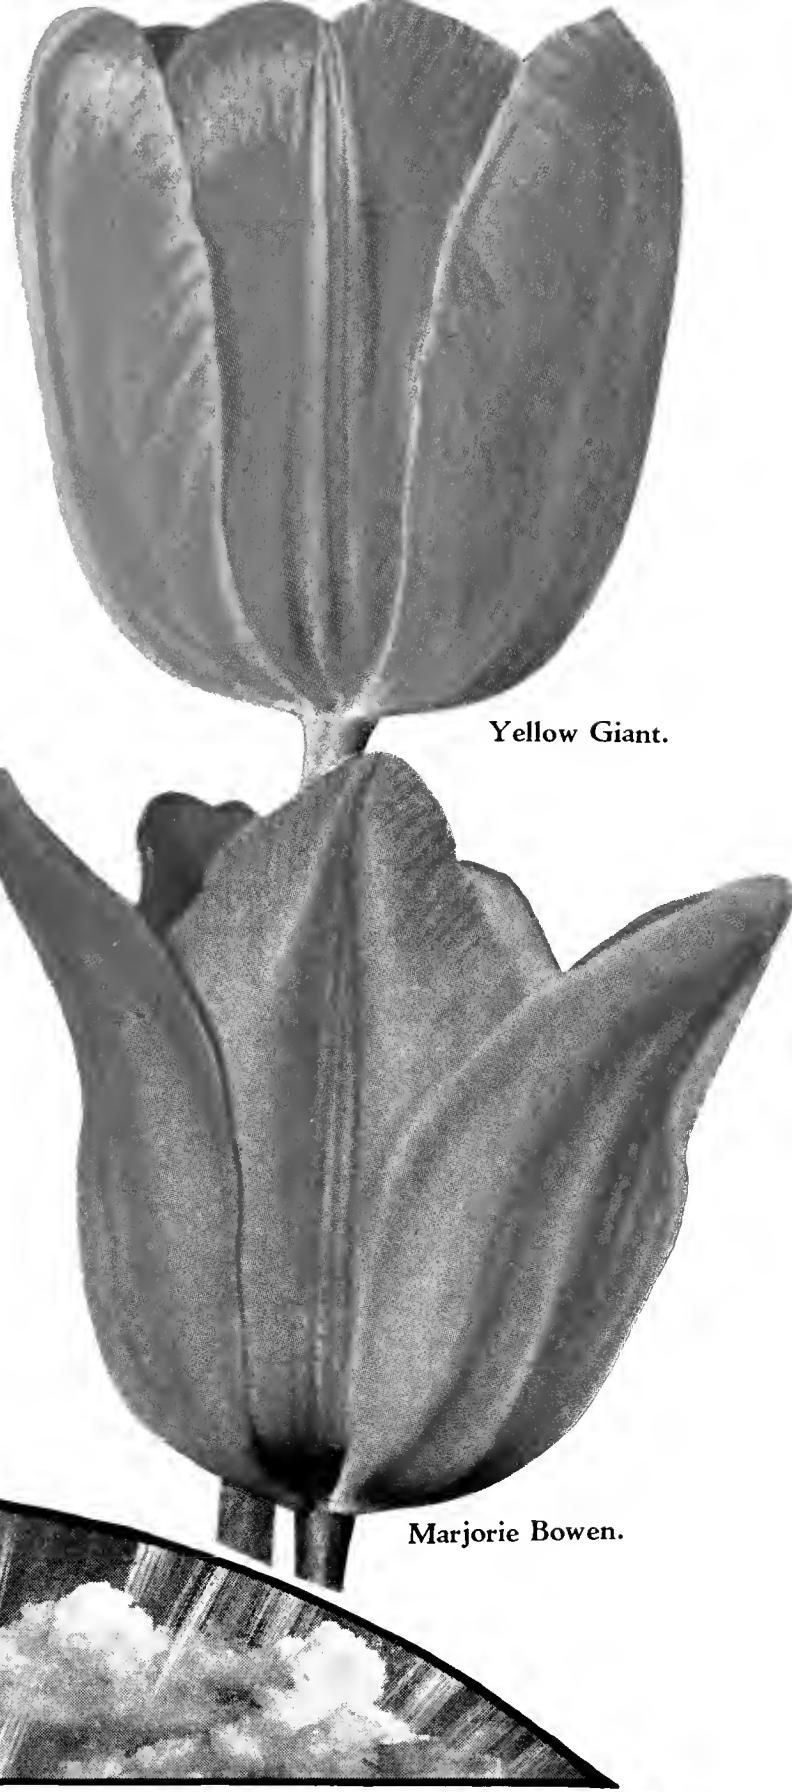

Louise de la Valliere. Bright sherry-rose, blue base marked white. A Tulip of remarkable beauty and very clear coloring. One of the showiest of the Giant Flowering Tulips. Height 24 inches. \$1.00 per doz.; \$7.25 per 100.

Madame Krelage. Pink, light bordered; extra. 80c per doz.; \$5.75 per 100.

Marconi. Large violet flower with yellow center; distinct. 95c per doz.; \$6.75 per 100.

Marjorie Bowen. When the Dutch Bulb Growers Export Association informed us that the lovely Nectar had been completely exterminated in carrying out the crop destruction orders of the Dutch government, our president raved in anger. It is true, of course, that Marjorie Bowen is more beautiful and more desirable in every way but Marjorie Bowen is more expensive than Nectar was. These Tulips are so exquisitely beautiful that one or the other should be in every garden and now persons who cannot afford Marjorie Bowen must do without. Marjorie Bowen has beautiful deep carmine-pink flowers, slightly reflexed and graceful in form. Incomparably the finest of its color. 3 for 75c; \$2.40 per doz.; \$17.00 per 100.

Massachusetts. Light pink, large flower. 90c per doz.; \$6.25 per 100.

HYBRID TULIPS

Still hunting the pure primaries yellow and blue, plant breeders started a third series of experimental crosses and succeeded in finding yellow and a clean white. The results of these experiments were designated as Hybrid Tulips. Then began the crossing of the Darwins and the Breeders with the new group, which produced a color range so varied and so beautiful as to be beyond even the imagination of the previous generations of gardeners. Since the modern Giant Flowering Tulip contains the blood of all the preceding experimental crosses in proportions now unknown to the plant breeders themselves, it seems silly to maintain class distinctions which are now both scientifically and practically absolutely meaningless.

Giant Flowering TRIUMPH TULIPS

Rare and Exclusive

FLOWER IN APRIL

THIS magnificent new race of Giant Flowering Tulips blooms three weeks earlier than the older types. Consequently, the Triumph Tulips should not be combined with the older Giant Flowering sorts, since the two groups will not bloom together. When you want a Tulip garden more gorgeous than anything the older sorts can produce and want it earlier, or when you want a Tulip planting of incomparable splendor to tide over the interval between the passing of the Early Tulips and the blooming of the late, then Triumph Tulips meet your needs exactly.

Because they bloom relatively early, the Triumph Tulips may be bloomed in the house in the wintertime with but little trouble, whereas the forcing of the older Giant Flowering Tulips requires so much skill that amateur planters invariably fail with them.

For best results allow five bulbs for each square foot to be planted.

Alberio. A beautiful wine-red, darker than the deepest pink, lighter than pure red, with a very narrow edge of flesh-pink. An exquisitely delicate variety. \$1.10 per doz.; \$8.50 per 100.

English Garden Tulips

The Patrician of Bulbs

(FLOWER IN MAY)

THIS class of Tulips blooms at the same time as the Giant Flowering Tulips and the flowers average as large. The flower shapes, however, are different, being long and pointed, whereas the characteristic flower of the Giant Flowering Tulips is cup-shaped and the stems are not as long as those of the Giant Flowering group.

The long-pointed flowers of the English Garden Tulips are indescribably gracefully lovely and have that elusive elegance which comes only from generations of careful breeding. They are the true patricians of the Tulip family, exhibiting the dignity, restraint, graciousness and pride of carriage which comes only as a result of centuries of leadership. In the opinion of sophisticated planters, they dominate the Tulip family now as in the past. Some varieties are sweet scented.

For best effects allow five bulbs for each square foot to be planted.

Avis
Kennicott.

Alaska. A wonderfully beautiful clear bright yellow Lily-flowered Tulip on 25-inch stems. Nothing could be more lovely. 95c per doz.; \$7.00 per 100.

Avis Kennicott. Rich deep yellow, with black base. A very large flower and one of the best bright yellow Cottage Tulips. Height 25 inches. 95c per doz.; \$6.75 per 100.

Beauty of Bath. Describing it as sulphur-yellow flushed red fails to do justice to this exquisite Tulip. Flushes of delicate yellow and pinks glow on its surface like the iridescence of a pearl. \$1.00 per doz.; \$7.50 per 100.

Bouton d'Or. Deep golden yellow; of great value for outdoor cutting. Splendid. 85c per doz.; \$6.00 per 100.

Elegans Alba. Large, white flower of exquisite gracefulness, each petal reflexing and margined with rosy carmine. One of the most lovely Cottage Tulips in existence. Height 20 inches. 3 for 50c; \$1.55 per doz.; \$11.00 per 100.

Ellen Willmott. One of the finest Cottage Tulips. Flowers very large, exquisitely shaped, of a soft creamy yellow, deliciously fragrant. 18 inches high. 90c per doz.; \$6.50 per 100.

Fairy Queen. Soft rose-heliotrope, suffused with salmon-yellow. A very large flower with a lovely color. Height 20 inches. 85c per doz.; \$6.25 per 100.

Flava. Lemon-yellow; large, beautiful flower on a tall, stiff stem. A fine variety to plant among the pink-lavender and lilac Darwin Tulips. Will remain in bloom longer than almost any other Cottage Tulip. Height 25 inches. \$1.30 per doz.; \$9.50 per 100.

Glare of the Garden. Immense scarlet flowers 95c per doz.; \$7.00 per 100.

Gesneriana Spathulata. For bedding out in masses it deserves to be largely grown. Height 18 to 24 inches. Flowers of enormous size, on long, graceful stems. Color rich crimson-scarlet, with glittering blue-black center. The demand for this grand Tulip has been so great that it is very difficult to get flowering bulbs. To be sure of getting bulbs that will bloom, we pay a premium in Holland for guaranteed bulbs. This makes them higher priced, but our bulbs will bloom satisfactorily. 95c per doz.; \$7.00 per 100.

Grenadier. Blazing orange flowers. Often 10 to 12 inches across. Very best of its color. 90c per doz.; \$6.50 per 100.

Inglescombe Scarlet. Brilliant scarlet; enormous flower. 85c per doz.; \$6.25 per 100.

La Merveille. A magnificent variety with large, sweet-scented, orange-red flowers. 90c per doz.; \$6.25 per 100.

Marcellina. The improved Sirene. It would seem impossible to improve the delicate and lovely Lily-flowered Sirene; nevertheless the Dutch Tulip breeders have done just that. The pink of Marcellina is even more delicate, the lighter edge even more refined, the flower larger and sturdier and Marcellina is, of course, Lily-flowered. 3 for 60c; \$1.75 per doz.; \$12.00 per 100.

The Gay and

(FLOWER IN EARLY APRIL)

LIKE the robin, these Tulips gladden the heart with the news that spring has really arrived. They are among the first flowers to bloom after the drab barrenness of winter; their gay glowing colors are welcome carriers of happiness.

Single Early Tulips are so easy to force for winter blooming in the house that by following the simple directions a 14-year-old school girl can match the results secured by the most expert professional.

For best effects allow five bulbs for each square foot to be planted.

Our Money-Back Bond does not apply on these in the far South. The strong sun makes them bloom too soon. The flowers come when the stems are just an inch or so above the ground. In other latitudes this "forcing" does not happen, and our Money-Back Guarantee does apply.

Bunch Flowered Tulips

The Sensation of the Tulip Show

Though we had admired these Tulips in Holland, until recently we had not had an opportunity to test them in America. Exhibited for the first time in our Tulip Show they created a profound sensation. Every order booked included the bunch-flowered Tulips (*Tulipa Multiflora*).

The standard Tulip produces one flower to the bulb. The bunch-flowered Tulips produce from five to eight full-sized flow-

ers on each 2-foot stem. The colors are lovely and the effect is entirely new from anything heretofore seen in Tulips.

Spring's First Flower ~ The Crocus

(FLOWERS IN MARCH)

BETWEEN the melting of winter's last snow and the blooming of spring's first Tulip, a flat and barren landscape is an ordeal for sensitive people to endure. And it is quite unnecessary when Crocuses are available to fill in the void. It would seem almost foolish to deprive oneself of the joy that Crocuses bring. Even if one were indifferent on one's own account, isn't it selfish to refuse to add beauty to the world when beauty may be had at so little cost?

Crocuses, the earliest of all spring-flowering bulbs, are also the cheapest, and there is nothing else to take their place. If the foliage is not cut off they will last indefinitely. They should be used for edging Tulip beds or any garden bed or shrub border. Scattered through the lawn, they will gleam like jewels against the verdant background.

For best effects allow seven to nine bulbs for each square foot to be planted.

DAFFODILS *that come before the Swallow dares*

ELLIOTT'S BONDED NARCISSUS

We presume that for every Narcissus bulb there are planted one hundred Tulips or Hyacinths. That this is a great mistake anyone really familiar with the old-time merits of the Narcissi must admit. They lack the brilliancy of color of the Tulips but greatly surpass them in variety, delicacy and gracefulness of form, so that one never becomes tired of their soft, beautiful colors and they are a permanent addition to the garden. All that they ask is that they be allowed to remain undis-

turbed and they will increase in size and beauty year after year. We know of plantings made 50 years or more ago which are now finer than when originally set out. No one knows how long Narcissus will last.

Narcissi may be naturalized by the thousands in meadows and orchards where they will last indefinitely and they will grow in the house in the wintertime as easily as Tulips or Hyacinths.

Madame de Graaff. Largest and finest white perianth Narcissus; trumpet pale primrose passing to white. Delicate and lovely. \$2.15 per doz.; \$14.00 per 100.

Francisca Drake. Two years ago some sixty new Narcissus were planted in our test garden. Most of them, when they came into bloom, we judged worthless. "Just another Trumpet: A Barri not as good as Bonfire—" was the disgusted comment of Mr. Elliott as he examined them. One, Francisca Drake, stood out from among the rest like a lighthouse on a dark night. A pure white perianth of unusual substance, an inch and a half wide, tinted gold at the base; a cup, wide and deep, golden yellow at the base changing to flame orange at the edge of the beautifully frilled trumpet. In the judgment of Mr. Elliott the new Francisca Drake is lovely beyond compare. Each, \$2.00; \$22.00 per doz.

Lucifer. Large star-shaped white perianth and glowing orange-red cup. 85c per doz.; \$6.25 per 100.

Open the packages so that the air will circulate freely around the bulbs. Extra selected bulbs, 75c per doz.; \$5.25 per 100. Standard grade bulbs, 65c per doz.; \$4.25 per 100.

THESE special Bedding Hyacinths are selected for uniformity in color, height and time of bloom, and are especially packed for those who require a higher grade bulb than can be furnished in a mixture. No skill is required, nor will it give you any troubles. All you need do is watch the magic of its growth and beauty.

The Amaryllis is a semi-rare bulb. Heretofore, its price has been too high for it to become generally known. We are happy to announce that we are now able to offer these bulbs at a price so low as to attract thousands of flower lovers. Do not deny yourself the pleasure of having these strange and beautiful flowers. Send your order now, today.

Seven Hardy Bulbs That Flower in March

WHEN the shrubbery is bare, and every landscape is a depressing vista of sombre dreariness . . . when spring is a promise rather than a reality . . . then these seven brave little flowers bring cheer to the winter-weary soul.

Neither snow nor wind, nor rain can deter them from appearing on schedule time. Like mischievous little coquettes,

they wave their cheerful colors to you from under the brown shrubbery or over the edge of the rockery.

Plant them once, and year after year they will come up every March to say, "Here we are, happy to make you happy!"

For best effects allow seven to nine bulbs for each square foot to be planted.

A Garden

OUR friend, the lawyer, has a garden of Lilies. Many other things he has in his garden—great banks of Azaleas that are worth a long journey to see. Tulips, Daffodils and Crocuses are everywhere in the spring, and the glorious show of Japanese Irises in June is a sight not easily to be forgotten—but he has Lilies by the hundred and by the thousand, and in so many varieties that from June until November there is always a fine display of Lily flowers. Such a garden! By daylight it is splendid, by moonlight it is fairyland, and the air is filled with fragrance. Such a garden to visit, as we do visit it and travel forty miles a dozen times a year, and come away with our arms filled with great stalks of Lily blooms.

Japanese Lilies

Because of transportation difficulties, Japanese Lilies frequently do not arrive in time for fall planting, in which event we carefully pack them in sand and store them until spring, when they are distributed.

Auratum (Gold-Banded Lily of Japan). Large and graceful flowers of delicate ivory-white, closely dotted with chocolate-crimson spots; the center striped golden yellow; a truly gorgeous creation. 3 to 4 feet. Flowers in August.

of Lilies

For this is a garden in which there are always flowers to cut and to spare. It is not the miserable garden of bedding plants in which its owner finds it difficult to cut a little nosegay to give to a friend. We wish you who are content to grow commonplace things of so little beauty could visit this garden of Lilies, and then say what excuse you have to offer for your poor taste. Not that of cost, for Lily bulbs are to be had for as little money as bedding plants, and as Lilies are hardy, their first cost is their only cost, while bedding plants must be bought every season.

American Grown Lilies

Batemanniae. A vigorous, sturdy Lily growing from 3 to 4 feet, bearing from 5 to 10 splendid reddish orange flowers in July and August. Each, 40c; \$4.00 per doz.; \$27.00 per 100.

Regale. For forcing or outside planting. The center of the flower is flushed with yellow, shading to white at the outer edges. Externally the flowers are streaked with brown shaded through the almost translucent petals with a delightful pearly tint. A truly royal Lily and most extraordinarily beautiful. It has the merit of being hardy and as easy to grow as a carrot. It will grow anywhere, under almost any conditions and with no attention whatever. Its height is 4 to 5 feet and it blooms in July. Because of its great beauty and exceedingly easy culture it is the most popular of all the Lilies. It may also be forced. Selected bulbs, 25c each; \$2.50 per doz.; \$16.00 per 100. Extra selected bulbs, 30c each; \$3.00 per doz.; \$21.00 per 100.

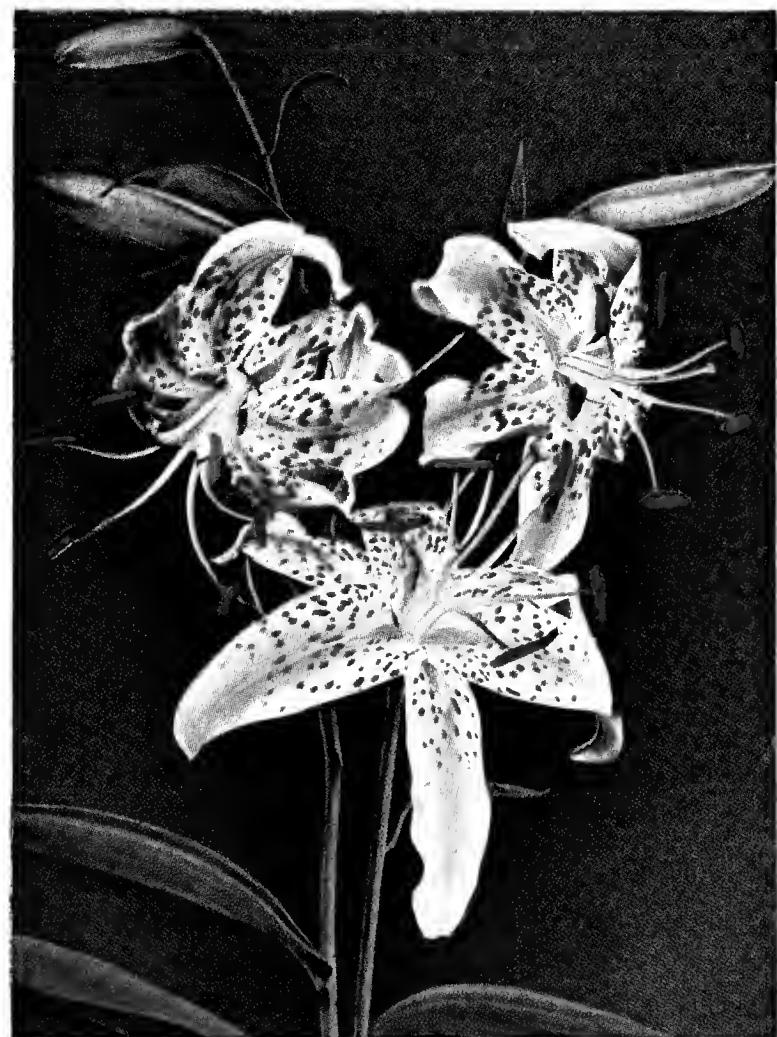

Superbum. The Lily that defies neglect. Superbum is unquestionably one of the most satisfactory and unusual Lilies. It can be planted in the garden or the meadows, in wet swamps or dry ground, on the edge of the woods or in cultivated ground. It will thrive wherever you put it—and it will grow without care or attention! On top of all this it is truly a superb Lily, as its name suggests. It often grows over 8 feet high, producing 20 to 30 orange-red flowers in the one month when flowers are apt to be scarce—July. Extra selected bulbs, \$2.00 per doz.; \$13.00 per 100.

Tigrinum Splendens. Well known single Tiger Lily. Attractive reddish orange blooms spotted with black. Extra large bulbs, \$2.00 per doz.; \$13.00 per 100.

Lilium Speciosum.

European Grown Lilies

Candidum. This beautiful and historic Easter Lily, one of the loveliest in the world, is known the world over as the Annunciation or Madonna Lily. Notwithstanding its rich beauty, many flower lovers deny themselves this fragrant Lily because of the incorrect belief that it must be planted early in September. At our own nursery we have planted as many as 10,000 in November to get beautiful blooms the following June, when we sold them to wholesale cut-flower buyers for double the price of the original bulbs! Elliott's Candidum bulbs are really the finest that come to America, being grown only in the north of France. Selected bulbs, 25c each; \$2.50 per doz.; \$18.00 per 100. Extra selected bulbs, 35c each; \$3.50 per doz.; \$25.00 per 100.

Philippinense Formosum. This lovely new gem produces very long trumpet-shaped flowers, white with a reddish brown shading on the exterior, carried gracefully on stems 2½ to 3 feet high. The flowers are very fragrant and the petals gracefully recurving. Besides being one of the loveliest, it is among the hardiest of Lilies. Each, 25c; \$2.50 per doz.; \$18.00 per 100.

Testaceum. Resembles more nearly than any other a yellow Madonna. In favorable situations it will grow from 6 to 7 feet tall and it is the most graceful of all the Lilies and its yellow color is exquisite beyond description. The bulbs are very scarce and orders for *Lilium Testaceum* will be filled in rotation as received and we cannot guarantee to fill late orders. Extra select bulbs, \$1.25 each; \$13.75 per doz.

Lily-of-the-Valley

American Pips. Ready in October. For outdoor planting only. 2-year-old pips, \$1.30 for 25; \$4.00 per 100, \$36.00 per 1000.

Extra Selected Berlin Pips. Ready in December. For forcing. (American Pips will not force). \$3.00 for 25; \$10.00 per 100.

Lilium Elegans.

Lilium Regale.

WHITE CALLA (*Richardia Aethiopica*). The White Calla, or Lily-of-the-Nile, is a well known plant of easy culture, and in winter is one of our best window plants. To aid profuse blooming keep them dormant from middle of June until the last of August; repot in good rich soil, using 6- to 8-inch pot; give water, light and heat in abundance, and the result will be most satisfactory.

Selected bulbs, 35c each; \$3.25 per doz. Extra selected bulbs, 55c each; \$5.50 per doz.

YELLOW CALLA (*Elliottiana*). The flowers are a magnificent deep golden yellow and the green foliage is spotted creamy white. Unquestionably the most beautiful of the Calla Lilies. Selected bulbs, 40c each; \$4.00 per doz. Extra selected bulbs, 50c each; \$5.00 per doz.

NAMED TULIPS Elliott's Hand Made Mixtures

Each Mixture Guaranteed to Contain 10 Distinct Varieties—All Named in This Catalog

THE USUAL method of preparing a mixture of anything is to take so many of this, so many of that and so many of the other, throw them in a pile, and mix them up with a wooden shovel. A mixture so made is a perfectly honest mixture, but what an individual customer gets out of it is obviously the result of chance.

FOR ADVANCE ORDERS ONLY, we will prepare five hand-made mixtures. Our new bulb warehouse, the finest thing of its kind in the world, contains a thousand bins. Every day, as required, ten employees will count out five bulbs each from ten named stocks and dump the fifty bulbs into one bin, repeating the operation until all of the bins are filled. EACH BIN WILL CONTAIN FIFTY BULBS AND NO MORE. Consequently to every customer who orders fifty bulbs of one of these mixtures, WE GUARANTEE THAT HE

WILL RECEIVE TEN NAMED VARIETIES, five bulbs of each variety. We further guarantee that all the varieties used are offered in this catalog. We cannot afford, at this price, to pack the bulbs under separate names nor allow the customer to specify what varieties shall be included. The choice must be left entirely to us.

Customers wishing less than fifty bulbs will have their orders counted from one of these bins. EXCEPTING WHERE THE ORDER CALLS FOR BULBS IN MULTIPLES OF FIFTY, we cannot guarantee that they will be filled with equal quantities of the ten named varieties, but it is probable that they will be. To the best of our knowledge and belief no other bulb house in the world has the facilities to prepare mixtures as fine as these and it will probably be years before anyone else can attempt it.

Clara Butt

SOLD WITH A MONEY-BACK BOND

THE Clara Butt towers above ordinary tulips because of its alluring beauty. It is one of the Big Four of the Tulip Kingdom. From its lovely tapering bud, to its exquisite, big, rich full flower, it is an ever-increasing joy.

Officially its designation is salmon-pink, but actually its rare color is exclusively, peculiarly and entrancingly its own. It catches and reflects every variation of light and shade. The Clara Butt is an all-satisfying tulip; it has been preferred by flower lovers through many generations.

Plant this bulb; it is easy to grow, and its health is remarkably rugged. Its strong, straight stems are 25 inches high. Its flower is large, even for a Giant Darwin.
